Helping Plants Grow Well

Your ideas about growing plants.

Here are some statements about plants and how they grow. Talk about them with your partner. Decide if you think they are true or false, or whether you are not sure.

Statement	True	False	Not Sure
Plants provide food for us			
Plants use their roots to take in water			
Plants have leaves to catch the rain			
All plants need light to keep healthy			
The stem helps to take water from the roots to the rest of the plant			
All plants need soil			
Plants cannot grow in very cold places			
Plants have brains			

Are there any words you are not sure about? What are they?
